### **Vignon Named in *Entrepreneur* Top 50 Fastest-Growing Women-Led Companies**

CEO Kathy Blanck honored for building strong IT services and consulting firm

DALLAS, TX – December 4, 2008 -- Dallas entrepreneur and CEO, Kathy Hodgins Blanck will be recognized in Manhattan today for founding and building [Vignon Corporation](#) into a multi-million-dollar IT services, staffing and consulting firm.

[Entrepreneur](#) and [Women President's Organization](#) selected Vignon for its quick and strong percentage and absolute growth since 2003. Ms. Blanck began Vignon with an initial investment of \$20,000, and grew the company to \$3.6 million in 2007.

“Client satisfaction is our number-one priority at Vignon,” said Ms. Blanck. “We believe that just having the technical and operational solution is only part of the equation. People make the difference—a diversity of people with a diversity of skills who match their goals and objectives with those of our clients is our recipe for growth. It couldn’t be done without the great team of people who make up the Vignon family. And today, I’m proud to say it’s paying off.”

An entrepreneur by nature, Blanck successfully built and sold two companies before launching Vignon in 2001. By leveraging previous experience as Vice President of Interliant, Inc. and Schlumberger Sema’s Government Services Group, she gained the knowledge and drive to build technology companies of her own with a unique focus on clients’ expectations.

Vignon Corporation brings knowledge, expertise and experience with legacy and enterprise systems to public and private sector organizations, with a specialty serving regulated and non-regulated utilities. The company has a close partnering relationship with SAP and is an SAP-certified Alliance Services Partner. Headquartered in Dallas, Texas, Vignon serves clients throughout the United States.
